

Activity Timeline

Math-115-02 Activities
To keep track of shit because hard

Day 01 ————— (08/19)

Updates:

Prof TA LA Faculty Info, Activities built their own Community Guidelines, Name cards, Introductions, Slido about Summer, Stem lab visit

Notes:

Bonnie forgot about activity was a thing until the day before class so nothing was properly integrated or talked about. Syllabus was not completed before the first week, so I/we had to wing some things and assume things on the fly

Day 02 ————— (08/21)

Updates:

Revised Faculty Info, Combined Community Guidelines, Created Discord server, talked about XYZ, add/drop/switching. Made groups for the upcoming weeks. Talked about math bio briefly and learning styles online activity in class and compared them to other's answers

Day 03 — Act 01 — (08/26)

Topic:

Chapter 1: Section 2: Representing Collections of Numbers

Material:

Interval Notation (a, b) and inequality notation $a \leq x \leq b$ with $\pm\infty$ from a number line

Notes:

Students had issues remembering solid or empty dot and their respective symbols

Day 04 ————— (08/28)

Topic:

Chapter 2, Section 1: The Coordinate System

Material:

My old classic MATH plotting activity. Got everyone set up on XYZ and explained details

Notes:

Students had issues remembering solid or empty dot and their respective symbol

Updates:

Explained that they get bonus points for going to the Stem Lab!

Your Name:

Novemeber 20th 2025

Day 04 — Act 02 — (09/02)

Topic:

Chapter 2, Section 1: The Coordinate System

Day XX ————— (12/11)

Topic:

Last Day of the semester!
